PRODUCT ENHANCEMENTS

Sora updates

Educator feedback informs the latest and greatest Sora updates, designed to help students read more and achieve success in the classroom and beyond.

- **Device notifications:** Receive an alert to your browser or iOS or Android device when a hold is ready to borrow in the Sora app.
- **Shelf Talkers:** This fun new feature lets you add quotes, trivia, personalized recommendations and other notes to titles in your Sora collection!
- **+Add Library:** When students log in to their public library in Sora, the Explore tab will automatically display collections the library has curated specifically for kids or teens, making it easier to find the books best suited for them.

Student dashboard updates

Gain more insight into your students' reading habits through enhancements like independent customization for Advantage accounts, extended reading data access and roster syncing. Plus, you can now optionally display reading data from content bundle checkouts.

Metered Access Manager

This new tool helps you easily find and repurchase Metered Access content in OverDrive Marketplace. Create customized plans based on criteria like format, price, audience, language, time and more, with options available to generate automated carts for review and create on-demand reports.

TeachingBooks®

TeachingBooks, an OverDrive company

TeachingBooks is a perfect complement to your digital and print books, perpetuating informed, joyful reading for all students. TeachingBooks is available in over 55,000 schools and libraries.

Freely sign in and start exploring at teachingbooks.net/OverDrive

Introducing Book Resumes from TeachingBooks

Book Resumes are instantaneously generated reports that aggregate professional reviews and credentialed information about children's and young adult books to help educators answer the critical question "Is this book right for my collection?"
