

Share ebooks and audiobooks across districts and schools

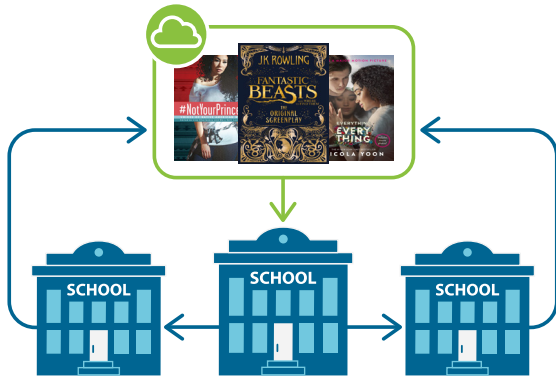

Expand access to digital books

WHAT IS A SHARED COLLECTION?

A shared collection allows two or more schools or districts to access ebooks and audiobooks via a joint platform. Titles purchased for the collection are available to all participating schools or districts through the Sora reading app.

WHY JOIN?

If School A were to start a digital collection of their own, they might only be able to afford 50 titles. However, by joining a collection shared across 20 schools or districts, School A could access 1,000 titles - and as more schools and districts join, the shared collection grows year after year.

HOW DO I GET STARTED?

- OverDrive's implementation team will build your shared collection's digital lending platform or seamlessly integrate you into an existing one, plus work with you to choose the right books for maximum engagement.
- All purchased titles are available to all members of the shared collection via Sora, through the app or browser version.

OverDrive
advantage[™]

- OverDrive's Advantage program allows you to add titles specifically for your school or district (separate from titles available in the shared collection)
- Add additional copies of titles exclusively for specific grades or schools, plus use curation tools to ensure the right titles are reaching the right students at each grade level
- Implementation team to assist you with setup, training, and content selection

Students and educators have access to titles from the school's shared collections and the individual Advantage collections they belong to.
